Dear Terry and team

It was with some trepidation that we embarked on our building programme. We usually did all our own work so we were anxious to find someone who cares as much as we did about it being right.

After our first meeting when you came to see us and brought your portfolio, of which you were justly proud, we felt that we had found the right person. You were obviously someone who wanted a job to be well done and you cared about *** what we wanted. You also had a wealth of experience on which you could draw.

Some months down the road we got exactly what we wanted and we are very satisfied. We also had a very pleasant and stress free experience into the bargain.

Whenever anyone mentions needing any building work doing we always recommend you. Neighbours have noticed and commented on the careful and tidy way in which you have done the work.

Thank you to all your team including the tradesmen that you recommended to us, be3ing so easy to get on with and for doing an excellent job for us.

Yours sincerely

Geoff and Kate Gittins
